DETAILED ACTION

DETAILED ACTION

Drawings

1. The drawings are objected to because the line quality of the drawings is generally poor. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the following features must be shown or the features canceled from the claims: the wiper being "realized in the form of a brush" as

Art Unit: 3753

recited in claims 4 and 9; and, the lever arm being "a parallel arm" as recited in claims 5, 10, and 11. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The abstract of the disclosure is objected to because it does not avoid using legal terminology normally reserved for claims (i.e., "means" appearing in line 5 of the abstract). Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3753

5. Claims 1 through 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear what is encompassed and what is excluded by the limitation “in the vicinity of” in line 4 of claim 1, thereby rendering indefinite the metes and bounds of protection sought by claim 1 and all claims depending therefrom.

With regard to claim 2 as written, it is not clear to which element the indeterminate pronoun “it” appearing in line 3 of the claim refers. Recommend replacing “it” with a direct recitation of whichever element is referred to thereby.

Note that the limitation “drive means” in line 3 of claim 2 is broadly interpreted and is not being interpreted as invoking 35 U.S.C. 112, sixth paragraph, because it fails to use the prerequisite terms “means ____ for”.

With regard to each of claims 6 and 12 through 14 as written, it is not clear whether or not the manual lever refers to the same element as the drive means, thus further rendering indefinite the metes and bounds of protection sought by the claims.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. As best can be understood in view of the indefiniteness of the claims, claims 1 through 5 and 9 through 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Pripke et al.

Art Unit: 3753

Priepke et al. discloses a radiator 20, a cage-like arrangement 22 including a screen 26, and, a cleaning device including wipers or wiper blade strips 44 fastened to parallel lever arms 40 and drive means or motor 36.

The reference thus reads on the claims.

8. As best can be understood in view of the indefiniteness of the claims, claims 1, 2, 5, 7, 15, 18, and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by McNeil.

McNeil discloses a radiator 3, a screen 5, a cleaning device including a sweeper 23 having radial blades 24 which are fastened to parallel lever arms, and an air scoop 8 which is readable on the vacuum “connecting device for a vacuum cleaner” as recited in the claims.

The reference thus reads on the claims.

9. As best can be understood in view of the indefiniteness of the claims, claims 1 through 4, 7 through 9, and 15 through 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Frerich.

Frerich discloses a radiator 32, a screen 36, a cleaning device including wipers/brushes 46 and 48 and 50, and a vacuums 54 or 58.

The reference thus reads on the claims.

10. As best can be understood in view of the indefiniteness of the claims, claims 1 through 3, 7, 8, 15, 16, and 18 through 20 are rejected under 35 U.S.C. 102(b) as being anticipated by West et al.

West et al. discloses, for example: a radiator 40; a screen 84; a cleaning device including a vacuums 132 having a wiper 132, a lever arm 136, and a tube 144.

The reference thus reads on the claims.

Art Unit: 3753

11. The non-application of art against claims 6 and 12 through 14 should not be construed as an indication of allowable subject matter but rather as an indication that the claims could not be further examined on the merits due to indefiniteness.

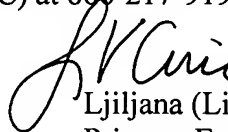

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ljiljana (Lil) V. Ciric whose telephone number is 571-272-4909. The examiner can normally be reached on Mondays through Fridays from 10:00 a.m. to 6:30 p.m.
